About Us

At PureCeuticals we have a passion for results-oriented skin care. Our innovative line of natural and organic-based products are developed using scientific principles. All products are free from:

- **No Parabens**
- **No Sulphates**
- **Products not tested on animals**
- **PETA Approved – Cruelty Free**
- **98% Certified Vegan – Vegan.org**
- **No Petrochemicals**
- **Fragrance composed with 100% essential oils**
- **Environmentally Conscience**

At PureCeuticals, we believe that everyone deserves skin care products that are conscientiously produced, natural based, and results-oriented. PureCeuticals are made with high levels of cosmeceutical-grade ingredients, most companies will not show percentages of active ingredients, we want our customers to know exactly what they are getting.

Our Products

We have two product lines to choose from, both lines can be mixed and matched (see Shop by Concern tab)

PureCeuticals All products are 97% to 100% natural, with pharmaceutical grade active ingredients such as peptides, retinol, azelaic acid, lactic acid, DMAE, glycolic acid, GABA and new generation of powerful, naturally derived, anti-aging ingredients - Shelf Life is 12 months.

PureCeuticals (Exotic Naturals) – All products are 100% natural and vegan, premium botanicals, with high levels of active ingredients such as organic shea butter, amazonian fruit butters, sugar cane, grape skin extract, and sugar apple extracts. Uses Lexgard Natural (100% vegetable derived preservative system) - Shelf Life is 8 – 10 months.

Exotic Naturals

Exotic Naturals line is eco-conscience, vegan, holistic skincare for a 100% green lifestyle. This collection uses naturally based emulsifiers, surfactants and preservatives (Lexgard Natural -100% vegetable derived preservative). Each product is produced in small batches utilizing the purest methods possible, which means it's more costly to produce.

Our products do not contain animal source ingredients, employing eco-friendly fair trade ingredients, clean energy sources and recyclable packaging. All products are manufactured in a state of the art dermatology lab in Vancouver which manufactures using the cleanest, most eco-friendly, lowest carbon footprint possible. With over forty years of experience in organic chemistry and aesthetics, the result is our phenomenal product free of harmful elements, without sacrificing effectiveness.

Founder Marlene Weber's passion for skin care solutions originated during her early twenties when she developed complexion problems. Not finding skin care products that addressed the root cause of her skin problems, Marlene began learning about how the body works, and the science supporting the mechanisms needed for healthy skin. Wanting to share her knowledge and help others who were suffering from skin problems, she became an esthetician.

Furthering her experience and knowledge-base, Marlene was an integral member of the Product Development Team at Burke Williams Spa. Due to the constant demand of her skin care expertise, she branched out on her own, and began her own business. Marlene then assembled a team of experts, to bring to market an innovative, results-oriented skin care line that is available to everyone. The result is PureCeuticals: quality, reasonably-priced skin care products that you can commit to for the long haul.
